DATED 3-1-39

[Despatch Abstract.

INDUSTRIES - Government Industrial School Bellary, superintendent of the institute to appoint any member of staff as warden of the hostel attached to the institute - Authorised.

Copy of letter No.841-C/38 dated the 9th March 1938 from the Director of Industries, to the Secretary to the Government of Madras, Development Department.

Government Industrial School, Bellary - Hostel - Warden's quarters.

The Inspector of Industrial Schools has recently inspected the Government Industrial School, Bellary, and reports that the Superintendent is now preparing, for the approval of the Inspector of Industrial Schools, draft rules for the conduct of the Hostel opened by the Honourable the Minister in November last. The Superintendent has found it necessary to make one member of the staff responsible for the maintenance of hostel discipline etc., and has accordingly in anticipation of sanction appointed the Assistant Lecturer to be Warden in charge of the Hostel and has allowed him to take up his quarters temporarily in the gate house.

2. At the Government Industrial School, Madura, the Warden is provided with quarters for which he pays rent, but is given a warden's allowance. I am desirous of maintaining the Hostel at Bellary at a minimum expense to Government and whilst agreeing with the Superintendent that a warden is necessary, I do not propose any allowance but consider that the member of the staff who undertakes the duties of warden should be provided with free quarters in the school premises to enable him to discharge his duties properly. I agree, however, with the Inspector of Industrial Schools in considering the gate house to be most unsuitable for warden's quarters except as a temporary emergency measure. In this building it is not possible to provide any privacy for the warden's wife and family and no member of the staff would be willing to reside there except as a temporary measure. The use of the gate house as a domestic residence would be likely to prove a nuisance to visitors and the school staff.

3. The Inspector of Industrial Schools who has examined the matter on the spot reports that in connexion with the reconstruction of some old buildings for the hostel use a small

cottage of three rooms and verandah has been put into good repair and is used as a bathing place for hostel students. He considers that it is too good a building to be used for such a purpose that alternative bathing arrangements could easily be made in the old carraige shed building and recommends that the cottage be turned into warden's quarters with a private entrance to the street and a small area fended off as house yard. With such an arrangement a gate or door in the fence would provide a road for the warden himself to go to the school or hostel or for a hostel inmate to call him in an emergency, but the family would not have to mix with the school staff or pupils and could live in peace and privacy whilst children would not have to be made free of the school premises.

4. In order to render the cottage suitable for the purpose it will be necessary to provide a latrine and bathing place and this the Inspector of Industrial Schools reports could be easily arranged. The Superintendent estimates that at Public Works Department schedule rates the work of adaptation will cost Rs.300 plus Rs.15 for alternative bathing places for the boys, but agrees with the Inspector of Industrial Schools that if the work is done departmentally under his own supervision and if nothing is debited for boys labour in making doors and windows or for centage supervision or other over-head charges, the net cost to Government for material and outside paid labour will not exceed Rs.175/. I accordingly request that Government will be pleased to sanction the execution departmentally of petty items of construction and repair necessary to render the cottage suitable for warder s quarters at a cost for material and outside labour not exceeding Rs.175/--that the Superintendent be permitted to appoint any member of the staff as warden subject to the approval of the Inspector of Industrial Schools, that the Warden be given free quarters in the cottage to be reconstructed, but no warden's allowance, and that pending the completion of the work the Superintendent's action in allowing the Warden to occupy the gate house be approved. I am dealing separately with the question of using the gate house as a camp shed for officers of the Department and other Presidency officers halting at Bellary.

Subject:- Government Industrial School, Bellary - Hostel - Appointment of Warden -Free quarters.

(C.No.1393 II/38.) From the D.I.No.841-C/38 dated 9-3-38.

To U.S.

Please see the letter from the D.I. in the c.f

2. The Director of Industries proposes that the Superintendent of the Government Industrial School, Bellary may be permitted to appoint any member of the school staff as warden of the hostel attached to the school subject to the approval of the Inspector of Industrial Schools, that a small cottage of three rooms and verandah may be turned departmentally with the assistance of the school students at a cost not exceeding Rs.175/- for materia and outside labour, into quarters suitable for warden and that the warden be allowed to occupy the cottage so reconstructed free of rent in stead of giving him warden's allowance. The Director requests that the action of the Superintendent in appointing one of the school staff as warden and allowing him to occupy the gate house of the school temporarily be approved. The warden of the Madura Industrial School is given an allowance of Rs.15/- for the work connected with the hostel One of the Instructors of the Madura School is the warden of the hostel and he is paying a rent of Rs.7-8-0 per mensem. The arrangement suggested by the Director in the case of the Bellary school that the warden may be given free quarters but no allowance for the work done as warden, is economical. The proposals of the Director in para 4

of his letter at page 3 c.f. may therefore be accepted in this department. The action of the Superintendent of the school may also be approved. The remarks of P.W.D. and Finance may be invited. P.W.D. has to issue orders allotting the cottage as warden s quarters and the gate house temporarily as warden s quarters.
